Cleaning & Maintenance

The following suggestions will help keep your garment in good condition:

- Cotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Wash separately with like colours.
 - Pre-treat greasy stains and wash the shirts in warm water with a light cleaning solvent.
 - Do not use bleach or use products containing bleach as fading and reduced fabric strength may occur.
 - Thoroughly rinse the shirt.
 - Do not hang in direct sunlight as this may cause fading.
 - Iron the garment on low heat.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
